The Missouri Department of Elementary and Secondary Education, the Regional Professional Development Centers and the Missouri Association for Health, Physical Education, Recreation and Dance collaboratively present the 15th annual Quality Health and Physical Education Workshop for 2012. This workshop will offer a full day of quality professional development designed primarily for PK-12 health educators and physical educators. This activity based workshop will include: innovative activities that model effective teaching and formative assessment; identification of resources for classroom, curriculum, and program funding opportunities; and an opportunity to tackle “*The Big D*”...defending and proactively promoting the importance of your programs, as well as discussion about local, state, and national trends and issues (such as PE2020), legislative activity and MSIP 5. From cross curricular learning and assessment, to identifying and dealing with health issues that impact student learning, and from structured recess, to the new portion plate, and using phone apps in physical education... this is one workshop you don't want to miss! Handouts of resources will be provided.

What do you need to do:

1. Select your workshop date and location (see if you can obtain local funding)
2. Register
3. Dress to be an active participant
4. Bring your laptop
5. Get ready for an engaging professional development experience for the 21st century teacher!

To register go to www.moahperd.org and click on DESE Links and then on Regional Professional Development Centers. Determine your center by the county in which you live. Then scroll down and click on the blue title of the RPDC. This will get you to the Home Page.

To register for Springfield, please use link below.
